

Author	Joao Araruna
Test Case	TC11
Description	Verify that the user is able to return to customers list from customers details

Given that the application was started
And the user access the Water Customer App link
And fills the field with your name

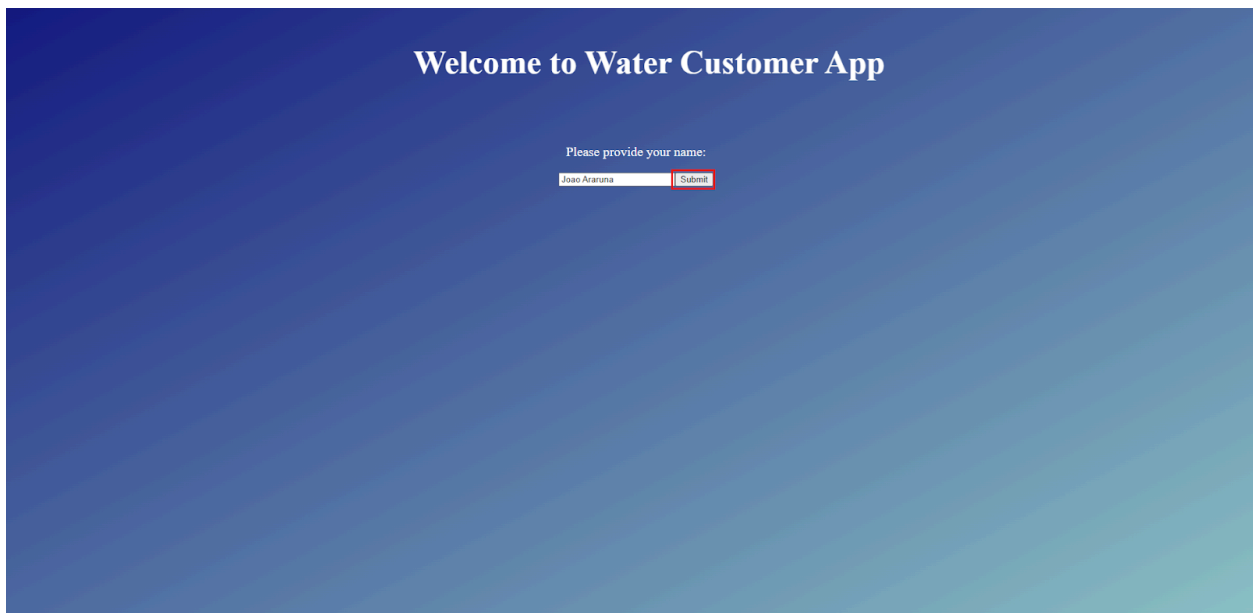

Welcome to Water Customer App

Please provide your name:

Joao Araruna Submit

When clicks on Submit button

Welcome to Water Customer App

Please provide your name:

Joao Araruna Submit

And the customers list is presented

The screenshot shows a web browser window with the URL `localhost:3000/#`. The page has a dark blue header with the text "Welcome to Water Customer App". Below the header, a message reads: "Hi **Joao Araruna**. It is now **Tue May 28 2024** and here is our customer list. Click on each of them to view their contact details." Below this message is a table with three columns: "Name", "# of Employees", and "Size". The table lists seven customers: Las Vegas Water, Los Angeles Water, San Francisco's Water, New York's Water, Miami's Water, Chicago's Water, and Denver's Water. The table is highlighted with a red border.

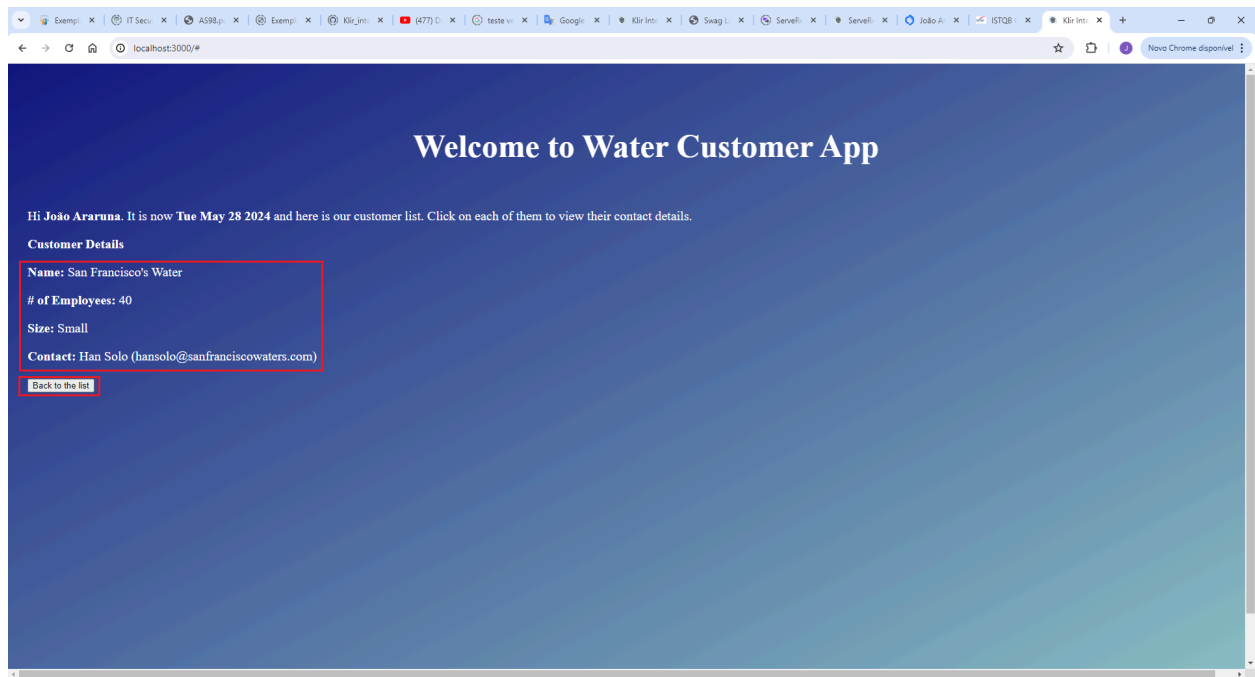

Name	# of Employees	Size
Las Vegas Water	3200	Big
Los Angeles Water	5050	Big
San Francisco's Water	40	Small
New York's Water	9053	Big
Miami's Water	2450	Small
Chicago's Water	1107	Small
Denver's Water	1507	Small

And the user select the name of some customer

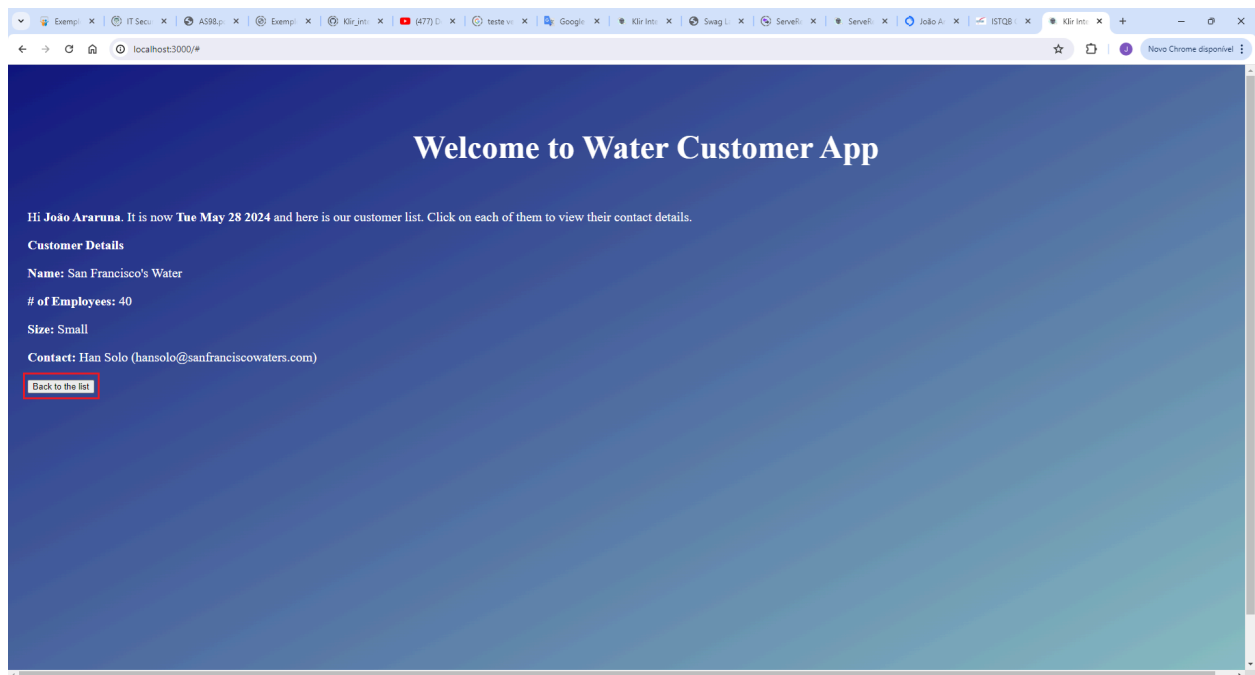

The screenshot shows the same web browser window as before. The table is still present, but the row for "San Francisco's Water" is highlighted with a red border, indicating it has been selected by the user.

Name	# of Employees	Size
Las Vegas Water	3200	Big
Los Angeles Water	5050	Big
San Francisco's Water	40	Small
New York's Water	9053	Big
Miami's Water	2450	Small
Chicago's Water	1107	Small
Denver's Water	1507	Small

And the application shows the customers info with the button “Back to the list”

When clicks on the “Back to the list”

Then the application returns to the customers list
